

# Falcon Class

26<sup>th</sup> November 2020

This week we have been learning about coordinates and translation in Maths. We put masking tape on the carpet to plot out a grid to put the coordinates on and expanded our learning by looking at grids with four quadrants. In English, we have begun to read *Oliver Twist* to compare the settings that are written in *Street Child* and *Oliver Twist*- this will help us when we come to write our own narrative next week. In Science, we investigated how to make a bulb brighter and made sure we had a controlled variable in our circuit.

Next week, we look forward to furthering our learning in Active Maths week and taking part in a Victorian workshop.
