

Falcon class

10th December 2020

This week, we have been exploring poetry in English and even created our own. The focus was a Victorian child and come jobs they would have done e.g. working in the coal mines- we have some creative writers! In Maths, we continued our learning on decimals, multiplying, and dividing by 10, 100 and 1000. In Art, we used Styrofoam and paint to block print our designs inspired by William Morris. Have a look at some of our work displayed around the school this term.
