

Year 3 Home Learning

Date Set: Friday 11th December 2020

Dear Fox Class,

This week we enjoyed investigating the permeability of different types of soil. We used filter paper, a funnel, beakers and measuring cylinders to see which soils would allow water to pass through. In maths we have been working on adding 3 digit numbers with two exchanges. This has been challenging, and we have shown perseverance and enthusiasm! In PSHE this week, we were discussing what it means to be worried, and what we can do to help us when we feel worried. We looked wonderful in our Christmas jumpers on Friday!

Reading

Thank you for your support in reading this term. The children have been bringing their books in daily which has allowed us to read with them regularly, and them to change their books when needed. Continue to read for 15 minutes a night, and to ask comprehension questions from the reading dogs bookmark.

Spelling:

No spellings to practise this week! 😊

We have completed the year 1-2 words spelling assessment, and these have been shared with you today. Well done for your effort and progress with spelling this term! We will share a year 3-4 spellings sheet after Christmas, and will start working through this in class and at home.

Maths/ Computing

Please complete the 4 assigned activities on mathletics. You can access the link to this and some instructions by logging onto Google Classroom. The children know how to access Google Classroom already, and can use their normal USO login to log in. If for any reason you have problems getting onto Google Classroom, you can head straight mathletics and try the assigned activities.

Please do not hesitate to contact me via the office or through the fox class email if you have any questions.

Thank you again for all of your support this term.

Mrs Smiley and Mrs Strange 😊
