

Owl Class

10th December 2020

Dear Parents and Carers,

One more week to go until the Christmas break!

The children have been very excited about the approach of Christmas and as a class we have been exploring what Christmas means. We have made Christingles and learned about the symbolism attached to each part of the Christingle.

We have continued our work on perimeter and area and I am going to set some work on this on Mathematics so that the children can continue to practise this.

In addition to this, we have been filming our parts for the Nativity, which is shaping up nicely! The children have seen some snippets and I think they are all very excited to watch the whole thing.

Here are a few pictures of the children with their Christingles.

Have a lovely weekend,

Mr Charlton and Mrs Searle.
