

Butterfly Class

Friday 2nd October 2020

This week in Butterfly Class we have been enjoying exploring the learning environment and especially enjoying making with the big bricks in the outdoor learning environment. We even made our very own campervan and made sure it had the same amount of wheels on each side. We have also enjoyed having a dark tent in the classroom to explore the light table with as well as the colour changing pebbles. In Maths we have been counting from 0 -5 and backward from 5 - 0 through songs and games. Can you do this at home?

Books we read this week:
