

Hedgehog Class

Friday 6th November 2020

Dear Parents & Carers,

This week we have started using clues to discover what our new story might be about. We looked at the clues and made predictions. One of the clues was a giraffe so we have started to find out lots of new facts about giraffes!

In History, we have been learning about remembrance Sunday. We have read the story 'Where the Poppies Grow' by Hillary Robinson and Martin Impey. We have made our own Poppy art to remember all the soldiers.

In Maths, we have started to look at missing number problems. We have been using the part whole model to help us find the missing number. The part whole model helps us decide if we are adding or subtracting.

See you all again next week!

Miss Burrage & Miss Lewis
