

Fox Class

Friday 11th December

This week we enjoyed investigating the permeability of different types of soil. We used filter paper, a funnel, beakers and measuring cylinders to see which soils would allow water to pass through. In maths we have been working on adding 3 digit numbers with two exchanges. This has been challenging, and we have shown perseverance and enthusiasm! In PSHE this week, we were discussing what it means to be worried, and what we can do to help us when we feel worried.
