

# Butterfly Class

Friday 14<sup>th</sup> May 2021

This week in Butterfly Class we welcomed nine Indian stick insect eggs into Butterfly Class. On Friday morning we were shocked to discover that one of the eggs had hatched. We are very excited to watch 'sticky' grow and see the other eggs hatch. We collected ivy from our outdoor learning environment to feed the stick insects. We have also been planting more seeds this week. We are now waiting patiently for our rocket seeds, runner beans and chillies to grow.

## Reminders:

- Water bottles are required every day and we will refill them throughout the day.
- Please make sure that all school jumpers and PE Uniform are named as it makes it easier to find when they go missing.
- Children need to come into school wearing PE Uniform on a Tuesday and Thursday.
