

## Fox Class

21<sup>st</sup> May 2021

This week we have enjoyed watching our beans grow! Some of them are almost 10cm tall.

We have enjoyed using the chromebooks to research information about crocodiles, inspired by our book Krindlekrax.

Did you know: Crocodiles can lay up to 100 eggs!

The oldest crocodile known was called Mr Freshie and lived to 140 years old

Crocodiles have raised eyes so they can spy on their prey above the water.
