## Nursery provision at St Mary's

Dear parents and carers,

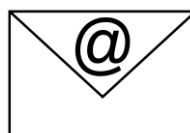

As you know, we made the difficult decision to close our school managed nursery provision for the current academic year, with the view of keeping an open mind and door to any future opportunities there may be.

I am pleased to share the exciting news with you that a nursery provision will be available within our setting in the near future! **Miracle Gardens Nursery** will be based within our nursery classroom and outdoor area and will provide full wrap around provision from 7:30-6pm every day.

Miracle Gardens is a privately run Nursery owned by Alla and her daughter Anna. Alla has extensive experience in nursery management and is very excited to be setting up full day provision here in our school.

We are very much looking forward to welcoming Alla and Anna to the St Mary's family soon and will contact families when we have further information regarding their opening date.

If you are looking for nursery provision and would like to find out more, please find their contact details below.
